

## GIS INBiz/Greenwood Implementation

Tom Maggard - City of Greenwood

10:30 - 11:20 am

### Bio:

**Tom Maggard** is a GIS Technician who provides GIS analysis and support for the City of Greenwood. He has over 10 years' experience in GIS, focusing on asset management and Stormwater. He is an active member of Indiana Geographic Information Council (IGIC) and sits on their board as Past President.

### Abstract:

Greenwood and the Indiana Secretary of State's office are embarking on an implementation that is a first for both entities. Businesses who wish to build commercial properties in Greenwood will be able to apply for that permit through INBiz, the Secretary of State's business management website. Greenwood will still manage the permit using Cityworks. I will briefly discuss how this idea came about, the process of linking our 2 software, and potential growth of this to other municipalities.
